ARCHITECTURAL BOLLARDS

AN OVERVIEW

Shaping Urban Spaces Day & Night

Perfect for parks, forecourts and other urban spaces, **Advanced Lighting Technologies'** stunning range of architectural bollards combine performance and aesthetics to create a lighting solution that impresses both night and day.

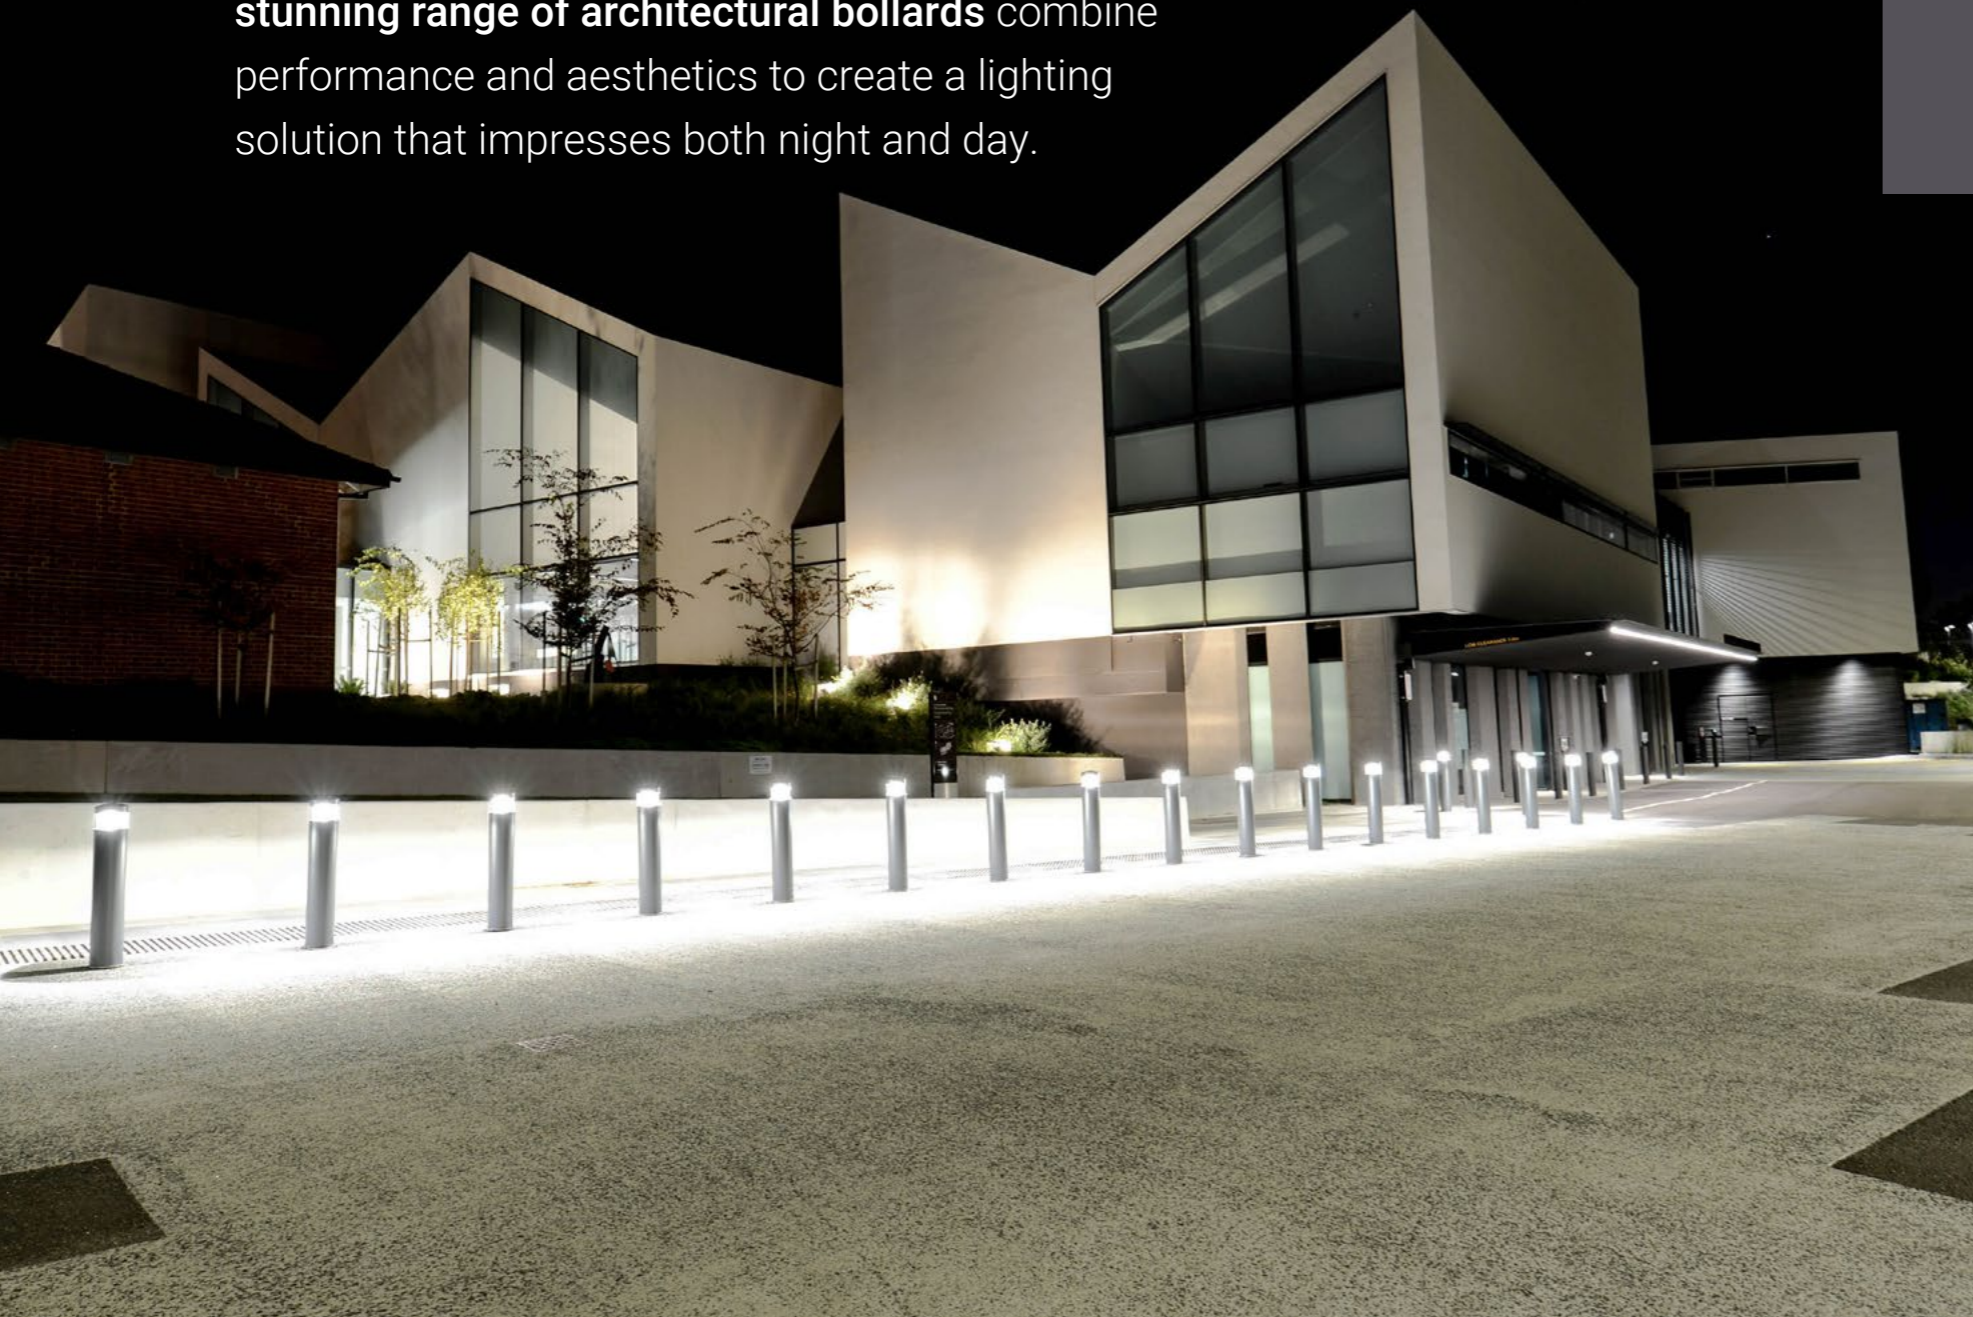

Conceived to meet the most demanding requirements of lighting designers, architects and end users, our bollards feature high-quality design and robust craftsmanship, backed by a minimum 5-year warranty.

Flexible & Adaptable

Ranging in height from 190mm to over 4m tall, a choice of designs, finishes and optical distributions offers maximum flexibility for your urban lighting needs. A selection of optics, colour temperatures, decorative effects and sensors are also available upon request (model dependent).

Robust & Reliable

Our bollards are built tough, with many boasting high impact resistance ratings to withstand the challenges of the urban environment.

Bollard Range

Designed to stand the test of time, our bollards add style and class to the urban environment without compromising on efficiency or quality.
