

S-Line Series

The S-Line Series from Holophane has a variety of options which have been developed specifically for street lighting environments. The system offers exceptional optical performance, thermal management, flexibility and efficiency.

Low profile styling, adaptable mounting design and customised optics that allow for maximum column spacing, lighting and uniformity mean that the 'Line' range delivers the complete street lighting solution.

PERFORMANCE SUMMARY

- Lumen range: 1,000 to 8,000
- Power Consumption: 6W to 68W
- Lifetime: 100,000 @ L90B10 25°C tq
- Colour Temperature: 3000°K or 4000°K
- CRI: 70
- Optical IP Rating: IP66
- Housing IP Rating: IP66
- Impact Resistant: IK10
- Controls Options:
DALI*, Integrated Wireless controls, Part Night Dimming, Constant Lumen Output,
- CMS and 3/5/7 pin* NEMA sockets
- Electrical Class: Class I* or II
- Weight: 4kg
- Body: High pressure die-cast aluminium (LM6)
- Adapter: High pressure die-cast aluminium (LM6)
- Optic: 4mm tempered glass lens
- Mounting:
Post Top 76mm/60mm
Side Entry 34mm/42mm*/60mm
- Tilting: +/- 10° tilt. (2.5° increments)

**Standard. Other options available on request.*

Revision: 19/01/2023

FEATURES & BENEFITS

Sleek Design

- Slim design with a range of lumen packages that can be adapted dependent on the required lighting performance thus ensuring visual and performance consistency for a variety of street lighting schemes.
- Suitable for post top or side entry mounting without the requirement for an additional bracket.

High Efficiency LED Technology

- High quality, highly efficient, LEDs used in conjunction with the latest LED drivers ensures that superior lumens per watt and a long system life are achieved.

Enhanced Thermal Management

- LED modules and electronic driver are mounted in direct contact with die cast housing to aid heat dissipation by way of conduction and extend the life of all critical electronic components.

Fully Controllable Luminaire

- Developed to offer standalone flexibility for constant lumen output, variable lighting levels and part time regimes.
- Available with DALI controls option.
- Compatible with Holophane controls system.

SPECIFICATION

The luminaire consists of a die cast LM6 aluminium housing ((EN AC-44100)(AL.Si12)) which is sealed to IP66 with a close cell gasket and M5 stainless steel fastener that also allows access to the gear compartment for electrical termination. The LED module, with individual lenses, are mounted directly to the die cast LM6 aluminium housing to aid heat dissipation.

The luminaire is also available with a 4-mm tempered glass lens, which is secured to the housing via 4 stainless steel clips, to deliver an IK10 impact resistance. The luminaire is suitable for post mounting (60/76mm) and side entry (34/42/60mm) with the ability to adjust onsite by -10° to $+10^{\circ}$ tilt*.

*Restrictions apply on selected mounting options

DIMENSIONS

INSTALLATION

Convenient luminaire access from the top, via captive screw. The LED light engine is separate from the driver, which encourages heat dissipation by way of conduction.

S-Line Series ORDERING INFORMATION

Code Luminaire (required)															
SLI S-Line Luminaire															
Code Series (required)															
.1 Series 1															
.2 Series 2															
Code Lamp Type (required)															
.LA01X LED light engine producing c.1,000 lm with a nominal 3000K or 4000K colour temperature															
.LA02X LED light engine producing c.2,000 lm with a nominal 3000K or 4000K colour temperature															
.LA03X LED light engine producing c.3,000 lm with a nominal 3000K or 4000K colour temperature															
.LA04X LED light engine producing c.4,000 lm with a nominal 3000K or 4000K colour temperature															
.LA05X LED light engine producing c.5,000 lm with a nominal 3000K or 4000K colour temperature															
.LA06X LED light engine producing c.6,000 lm with a nominal 3000K or 4000K colour temperature															
.LA07X LED light engine producing c.7,000 lm with a nominal 3000K or 4000K colour temperature															
.LA08X LED light engine producing c.8,000 lm with a nominal 3000K or 4000K colour temperature															
Code Optics (required)															
.AY Asymmetric light distribution (Type III Short)*															
.HN High beam long and narrow light distribution (Type III Short)*															
.HA High beam asymmetric light distribution (Type IV Medium)*															
.NR Long and narrow light distribution*															
.2S 2S (Type III Short) optical setting**															
.5R 5R (Type III Medium) optical setting**															
.Q1 Q1 (Type III Short) optical setting**															
.R3 R3 (Type III Medium) optical setting**															
.A2 A2 (Type III Medium) optical setting**															
.R2 R2 (Type III Medium) optical setting**															
.A4 A4 (Type IV Medium) optical setting**															
Code Lens (Option)															
.G Glass lens															
Code Version (Option)															
.PC Polycarbonate lens**															
Code Fixing Method (required)															
.PT1 Post top 76/60mm only															
.PT2 Post top 60mm only															
.SE1 34/42mm side entry mounting (using internal reducer)															
.SE2 60mm side entry mounting only															
.SE3 34/42mm side entry mounting															
Code Colour (required)															
.C1 White (RAL9016)															
.C4 Graphite (RAL7011)															
.C6 Grey (RAL7035)															
.C7 Black (RAL9005)															
.C9 Metallic Silver (RAL9006)															
.RAL**** RAL Colour (Customer choice)															
Code Paint Finish (option)															
.C Enhanced Paint Finish															
Code Auxiliary Circuits (option)															
.CII Class II															
Code Photocell (option)															
.T1 With NEMA socket. (To accept standard NEMA Photocell, available from Holophane).															
.T5*** Complete with 5-pin dimming NEMA ANSI C136.41 socket															
.T7*** Complete with 7-pin dimming NEMA ANSI C136.41 socket															
.T5T*** Complete with 5-pin dimming NEMA ANSI C136.41 socket with weather proof locking top															
.T7T*** Complete with 7-pin dimming NEMA ANSI C136.41 socket with weather proof locking top															
.TSZ+ Complete with miniature 70 lux factory fitted photocell. (Zodion SS12)															
.TSZA+ Complete with miniature 55 lux factory fitted photocell. (Zodion SS12A)															
.TSZB+ Complete with miniature 35 lux factory fitted photocell. (Zodion SS12B)															
Code Dimming Outputs (option)															
.LRD DALI electronic control gear															
.LRT56 Pre-set to dim to 50% between 12am to 6am															
.LRT66 Pre-set to dim to 60% between 12am to 6am															
.LRT76 Pre-set to dim to 70% between 12am to 6am															
.LRT***** Dimming as per customer requirements															
Code Control Gear (option)															
.CL7 Programmed to deliver 70% of the initial lumens over life of luminaire.															
.CL8 Programmed to deliver 80% of the initial lumens over life of luminaire.															
.CL9 Programmed to deliver 90% of the initial lumens over life of luminaire.															
.CL**** Customer specified programming															
Code Voltage (option)															
.C-PROTEC With 10kV / 10kA surge protection															
Code Flying Lead (option)															
.FL431 to 4 metres of 1.5mm ² 3 core single cable "flex"															
.FL1431 14 metres of 1.5mm ² 3 core single cable "flex"															
.FL432 to 4 metres of 1.5mm ² 3 core double cable "flex"															
.FL1432 14 metres of 1.5mm ² 3 core double cable "flex"															
.FL451 to 4 metres of 1.5mm ² 5 core single cable "flex"															
.FL1451 14 metres of 1.5mm ² 5 core single cable "flex"															
.FL4312 to 4 metres of 2.5mm ² 3 core single cable "flex"															
.FL14312 14 metres of 2.5mm ² 3 core single cable "flex"															
.FL4322 to 4 metres of 2.5mm ² 3 core double cable "flex"															
.FL14322 14 metres of 2.5mm ² 3 core double cable "flex"

catered for

Notes: * Only available with Series 1. ** Only available with Series 2. *** Must be configured with .LRD. **** Wattage range is determined by the lumen package selected. + Not available with CII. Lumen data is considered to be representative of the configuration shown, and may vary, with a tolerance on flux of +/- 7% (typical of LED manufacturer's data) and luminaire power of +/- 5%.
